## **Violins**

## **Cheap Trick**

You remind a little of a man You even resemble his picture Oh violins will playing On your graveI saw your crying

I caught you lieing

I know you cheated

Inside you're laughing

You got me running

You got me hiding

No sympathy

For your symphony of lieing Violins

They'll be playing playing

On your grave

They'll be playing playing Tell those invited

Tell those invited

Our kids was playing

The band is silent

You got me running

You got me hiding

No sympathy

For your symphony of lieingViolins

They'll be playing playing

On your grave

They'll be playing playing

**Violins** 

They'll be playing playing

On your grave

They'll keep playing playing You got me running

You got me hiding

I know you cheated

Inside your laughing

You got me running

You got me hiding

So sympathy

For your symphony of lieing

You got me running

You got me hiding

I know you're lieing

You got me running

You got me
You got me
You really got me
You got me
You got me
You got me
You really got me
