

Come On Girl

Luciana Caporaso

Come on, girl, come, on girl, come on, girl, hey
Come on, girl, come, on girl, come on, girl, heyBaby girl, you know that I just wanna take you to the spot
Do things to you that'll definitely gon' get you hot
I love how you shake that little booty around the club
I just wanna turn you, me into a usHomie wanna party but you know nobody else can do
We can do whatever keep it public or if you
Wanna keep it private and undercover that's cool
I just wanna stay under the covers with youNow I know that you want it, you've indicated
It's obvious I need to just make a decision
'Bout what I'm gonna say
Tell me what I gotta say
Tell me what I gotta sayTo take you away with me
To take you away with me
To take you away with me
To take you away with me
To take you awayCome on, girl, come, on girl, come on, girl, hey
Come on, girl, come, on girl, come on, girl, heyI can see the look inside your eyes and I know that you want it
You're flirty, flirty with me and I love the way you flaunt it
You know that you're the shit and that you own the club
I just wanna turn you, me into an usHomie wanna party but you know nobody else can do
We can do whatever keep it public or if you
Wanna keep it private and undercover that's cool
I just wanna stay under the covers with youNow I know that you want it, you've indicated
It's obvious I need to just make a decision
'Bout what I'm gonna say
Tell me what I gotta say
Tell me what I gotta sayTo take you away with me
To take you away with me
To take you away with me
To take you away with me
To take you awayCome on, girl, come, on girl, come on, girl, hey
Come on, girl, come, on girl, come on, girl, heyYou wanna take a bite? Come whip my appetite
But put me in, do your thing, make my head spin
So come on, take me away, you better take me awayYou better hit the spot if you want I can make you pop
So let go, electro, take it nice and slow
Come on, boy, come on, boy, come on, boyNow I know that you want it, you've indicated
It's obvious I need to just make a decision
'Bout what I'm gonna say
Tell me what I gotta say

To take you away with me
To take you away with me
To take you away Come on, girl, come, on girl, come on, girl, hey
