

Pause It And Turn It Up

Biffy Clyro

All I ask of you is to stick around
express the pain and your sadness
all I ask of you is to turn around
confess a system at work here
Wounds take time to heal
Wounds take time to heal
All I ask of you is to stick around
explain the art of your madness
all I ask is that you've learnt to turn around
confess the system at work here
Wounds take time to heal
Wounds take time to heal
Wounds take time to heal
Wounds take time to heal
I have an idea
about the voices I hear
Inaudible to everyone
everyone but me
turn it off
turn it off

turn it off
turn it off
I have an idea
about the voices I hear
Inaudible to everyone
everyone but me
turn it off
All i ask of you
All i ask of you
turn it off
All i ask is you
All i ask is you
turn it off x 6 (playing through next verse)
I have an idea
about the voices i hear
Inaudible to everyone
everyone but me
