

Wildflower

[Flo Morrissey](#)

When you said farewell
I didn't think you'd really go
So here comes the sad spell
As my heart expands from the gallowsBut this pain I was feeling
Was far from real
I thought you were teasing
I let go of what seemedI'll spread it out
Wildflower
WildflowerYou picked me apart
Forget me not
My petals fell
But never begin to rot
So now you all know what was I
This flower I speak of was no buttercupBut this joy I'm now feeling
Is much more real
I begin again as a seedling
Running fire to the fieldI'll spread my joy
Wildflower
Wildflower
Wildflowers, flowers
Wildflowers, flowers
Through the pain we merge so much more power
So thank you wildflower
