We Are Best Friends

L.P.D.Z.

There's nothing like family, to get you through the bad times
and share the lime light.When, singing and dancing was cool,I promise I'll never leave you girlfriends I love you.I feel the same everyday, that's why were successful, because we stuck together through it all ways.There's nothing like a smiling face, never have to pretend because I know you are my best friends.We are, we are best friends, till the end time I just want you to know that.We are, we are best friends, till the end of time I just want you to know that
