

# Nightmare Patrol

## Mekong Delta

Screams, lonely in the night  
Deadly torture, just remember  
War captivity  
Fellows on your side  
Blood - spurting out his neck  
While his head is rolling to the ground  
And his dying corpse's  
vincing at my feet  
And the torturer said to me  
The next one could be you  
And I told him all the things  
My comrades planned to do  
Screams, lonely in my room  
Wake up in cold sweat like every night  
I can't get these things out of my head  
Mad, I got nearly mad  
With this lack of sleep I can't get clear  
Help me in my pain  
I am shell shocked  
Every night it's just the same  
I can't rest my soul  
I'm the one who is to blame  
This nightmare patrol
