Drifters

Reactive Black

Itâ€™s like learning to fly
To share the night with you
Always by my side
Feelings full of desire
Fantasyâ€™s slipping through
Desireâ€™s coming through

I like drifting away
With you my special one
We are drifting through time and space
Like drifters on the run

To feel the darkened night
A dark heavy night
With full of stars around us
But warm with you by my side
By my side

I like drifting away
With you my darkened one
We are drifters through the night
Like shadows on the run

To be with you in the dark
Weâ€™re flying through the night
I feel so high
I love to be with you
Like lovers in the dark

To be with you...
In the dark...
