

The Western Front

Bury Tomorrow

I've seen this time and time before
Same run of play same end score
Could we be the better men this time?
Could we be the better men this time?
This is another invasion so why do we call it war

Refrain:

This is who we are
Fighting again and again with no sense of direction or love
So it's here we'll die
Knowing that every step we take of this has all been a lie

I've neer been one for uniform
Yet I'm suited
Booted
Ready for war
I heard them say this is our day
If you've never fired a gun sun you never felt really alive
I'm sorry that's a fucking lie
I'm being spoonfed poison
I'm clearly not ready to die

Refrain:

This is who we are
Fighting again and again with no sense of direction or love
So it's here we'll die
Knowing that every step we take of this has all been a lie

I'm taking over
I'm pulling back
These western winds have taken too many lives to bring back

Take back every word you said
Take back every lie you sold this nation

Refrain:

This is who we are
Fighting again and again with no sense of direction or love
So it's here we'll die

Knowing that every step we take of this has all been a lie
