Day By Day

The Dirty Heads

All hyped up, ready to begin
Styrofoam MC's keep crumbling
Dirty Heads stay tight couldn't loosen with a wrench
These rivers run deep, Mariano trench
Pickin' up speed, easy round the bend
Eye on the scope, target focused in
My guitar is my gun, I strum it like the wind.
Zoomed in on the pulse of the nation once againSo dont wait for me my friend
I'm just wasting time againSo day by day, I will move on
Can't stop now, it's been too long
Day by Day, I will grow stronger
Strides I take, they will grow longer
Day by Day, step by step,
Live my life, no regrets
Day by day, I will keep movin' on, day by dayBright lights on
Coming off the hinge
Rambling on like a Led Zeppelin
I got my sword and my pen like mad mordagin
Outta the abyss starting to ascend
Top of the class peak of the summit
Throw your worries of a cliff watch them as they plummet
Bandana and a harp playin' while youre strumming
Bobby McGee and Duddy b while your humming likeDon't wait for me, my friend
I'm just wasting time againSo day by day, I will move on
Can't stop now, it's been too long
Day by Day, I will grow stronger
Strides I take, they will grow longer
Day by Day, step by step,
Live my life, no regrets
Day by day, I will keep movin' on, day by dayMoving forward, beyond the borders
Take warning, my day has come
Stop for nothing, wait for no one
Take warning, my day has come
Take warning my day has comeSo day by day, I will move on
Can't stop now, it's been too long
Day by Day, I will grow stronger
Strides I take, they will grow longer
Day by Day, step by step,
Live my life, no regrets

Day by day, I will keep movin' on, day by day
