When You Walked Into My Life

Lila McCann

I've waited all this time counting minutes as they pass
Searching for a sign wishing for the best
And just when my hopes were wearing thin
You turned my heart to love againLike a miracle out of the blue
You rescued me like the angels do
You shook the heavens and cracked the sky
When you walked, when you walked into my lifeWhen you appeared, like sight to the blind
Like music to my ears, like a reason to a rhyme
And just when I thought my chance was gone
Love came to me with open armsLike a miracle out of the blue
You rescued me like the angels do
You shook the heavens and cracked the sky
When you walked, when you walked into my lifeYou spoke my name and the world began again
You touched my heart and it openedLike a miracle out of the blue
You rescued me like the angels do
You shook the heavens and cracked the sky
When you walked, when you walked into my lifeLike a miracle out of the blue
You rescued me like the angels do
You shook the heavens and cracked the sky
When you walked, when you walked into my life
