

Testify

Caleb Johnson

Advisory - the following lyrics contain explicit language:

So your spirits gone numb
Not sure who you've become
Yeah, you beg and pray for resurrection day
Just want to be someone Time to shake the earth
Time to move some dead
Gonna rattle some balls, gonna throw some stones
Til the stars are hurt All my brothers and my sisters
All your saints and all you sinners
Ain't no losers aint no winners
Get down on your knees and testify
(oh oh oh oh)
Testify
(oh oh oh oh)

Testify When your heart stops beating and you got no feeling at all
(all the way to the other side)

When your souls been sleeping and you need some felling Just come
Come on and testify
Testify Don't you think it's time
To turn the water to wine
Pass it all around let's make a joyful sound
And have a hell of a time All the whores and all the preachers
All the beggars and all the thieves
All the beautiful creatures
Get down on your knees and testify

Testify When your heart stops beating and you got no feeling at all
(all the way to the other side)

When your souls been sleeping and you need some felling Just come
Come on and testify
Yeah Come on and testify
Come on and testify
Testify
(oh oh oh oh)

Testify

(oh oh oh oh)All my brothers and my sisters

All your saints and all you sinners

Ain't no losers aint no winners

Get down on your knees and testify

(oh oh oh oh)

Testify

(oh oh oh oh)When your heart stops beating and you got no feeling at all

(all the way to the other side)

When your souls been sleeping and you need some felling Just come

Come on and testify
