Test of faith

rykerÂ´s

That's what friends are for...
Hua
It will take more
Than stupid followers to frighten me
Just like before
Disapproval's constantly
Can't they recall
The counterstance that we shared?
Just like before
They proudly demonstrate that they never cared
Voluntarily chained to my world
Where I'm help captive inside
Desperately
Searching for a reason why they do the things
They do a test of faith
Follow my path to never become like you
It's on the tip of my tongue but
I swallow it down and don't say a word
Accept all consequences
Ignore the dissapointment the alibies in what I've heard ...
I always believed...
I always believed...
I always believed that trust was payment!!
Huuuua
payment!!!
Passed all stages
Now I see things in a different light
That's what friends are for
Yeah for me to ...
For me to lose as much as only I can
