Cinema

Poison the Well

Living with a lack of light, things slip, things slip
Things I know very much to be real
In here I feel at rest, the insides of my eyelids tell me so
They are movie screensI find comfort in that I've been told
I can't remain here, to stay here would be a dream
But that's not what I want to be remembered as someone who fell inWe look for the best route, the shortest most accurate
I tend to enjoy the long onesI find comfort in that I've been told
Not to remain here, I shouldn't stay
It's not what mother wants for her cub
I like it here where I am, I can make up anythingI'm done with these movie screens in my head
They've preoccupied me for long enoughCome now stupid man
You've been down there long enough, oh long enough
Let's go do something with the day
You have hours and hours till night comesCome now stupid man
You've been down there long enoughNothing can hurt you in broad daylight
Nothing can hurt you in broad daylight
In here I can feel at rest, the inside of my eyelids tell me so
They are movie screensI find comfort in that I've been told
I can't remain here, to stay here would be a dream
But that's not what I want to be remembered as someone who fell inI'm done with these movie screens in my head
They've preoccupied me long enoughCome now stupid man
You've been down there long enough, oh long enough
Let's go do something with the day
Let's go do something with the day
