

Relight the Stars

[Caroline Harrison](#)

Im holding on, i wont let go
Without a hand, a hand to hold
A love that's lost, wont turn to gold
We set a sail, our hopes and dreams
A journey on, an endless sea
Your hand In mine, were sailing on and on Never let the flame burn out, our love is gonna be alright now
Deeper and deeper, the beating of heart
Never let the sun go down, our love is gonna turn the world round
Closer and closer, the mending of scars
Relight the stars Im calling out, across the shore
Through tears and time, an open door
The pages turn, just like before Never let the flame burn out, our love is gonna be alright now
Deeper and deeper, the beating of heart
Never let the sun go down, our love is gonna turn the world round
Closer and closer, the mending of scars
Relight the stars
A secret world, an unknown place
The sacrifices that we made, will always remain
Never let the flame burn out, our love is gonna be alright now
Deeper and deeper, the beating of heart
Never let the sun go down, our love is gonna turn the world round
Closer and closer, the mending of scars
Never let the flame burn out, our love is gonna be alright now
Deeper and deeper, the beating of heart
Never let the sun go down, our love is gonna turn the world round
Closer and closer, the mending of scars
Relight the stars
Relight the stars
Relight the stars
