

# Stop The World

Maxwell

Someone stop the world, yeah  
Seems like the moment has come and I'm gonna get you girl  
The shadows are forming across your parts the vision looks absurd  
No one around to interrupt the feelings, you stir babe[Chorus]  
Imagine if it was, if this was you, if this was I  
So perfectly designed to be here all night  
Let the world rage outside, cause when I'm here with you  
The world stops for me, the world stops for me And then extraordinary, ordinary things  
Things I can't explain, with subtext, the world stops for me  
And girl you know just what I mean, I need you girl  
Sing me a song, sing it soft, sing it long, girl stop my world, oh[Chorus] Someone stop the world, stop it, stop it,  
stop  
Someone, someone stop the world, stop the world We about to stop the world tonight  
We're about to love we ain't got no worries, no battles  
I'm gonna be with my girl tonight  
We about to stop the world, stop the world, stop the world  
We about to stop the world tonight  
We're about to love we ain't got no worries, no battles You are my own, yeah  
We about to stop the world tonight  
Make yourself at home  
I'm gonna be with my girl tonight  
And lay here all night long  
We about to stop the world tonight  
Oh yeah
