

In Memory

Primal Fear

Lost in my own dream
I'm standing at the wall
Dark clouds are passing by
And the evil takes control Emptiness is calling
Well, I light a candle now
So many times I've talked to the dead
The reason to go down In memory of you
Wait till the morning dew
It hurts my soul
It kills my mind In memory of you
It feels so dark inside
Waiting till the morning light Walking all alone
A red sky, the morning comes
I take you with me
Down to the crematorium Once there was a secret
And nobody will find out
So many times I've talked to the dead
The reason to go down In memory of you
Wait till the morning dew
It hurts my soul
It kills my mind In memory of you
It feels so dark inside
Waiting till the morning light In memory of you
Wait till the morning dew
It hurts my soul
It kills my mind In memory of you
It feels so dark inside
Waiting till the morning light In memory of you
It feels so dark inside
Waiting till the morning light In memory of you
Wait till the morning dew
It hurts my soul
It kills my mind In memory of you
It feels so dark inside
Waiting till the morning light In memory of you
I'm lost in my own dreams
In memory of you
