

# Romeo Is Dead

Peter Wolf

I used to follow wanting  
Wherever it would lead me  
A lot of lovers had me  
When they really didn't need me  
Fever in the blood  
Fever in the brain  
No one's walking out tonight  
Down on lover's lane Romeo is dead  
Juliet is dying  
Love and death  
Has got this whole town crying  
They believed the moon  
The moon was lying  
My heart is just a fool  
And fools keep trying I got a hundred dollars  
Won't last me till the morning  
If I spend it on you, baby  
Will you catch me when I'm falling  
Take a little pleasure  
Take a little pain  
Want to take a chance tonight  
Down on lover's lane Romeo is dead  
Juliet is dying  
Love and death  
Has got this whole town crying  
They believed the moon  
The moon was lying  
My heart is just a fool  
And fools keep trying
