

# Love the World Away

**Jimi Jamison**

I spent nights long nights  
Living in a world gone mad  
Walking down a street come back  
In the desperate moonlight

Dreams gone south  
People living hand to mouth  
Living in a place called out  
Never having a real life

In your arms  
I found a secret hiding place  
In your eyes  
I see the light of our escape

We can't hear the silence  
Screaming in the streets  
Can't see the stormclouds  
Building in the big city heat  
It could be Armageddon  
Seven stories below  
When it all comes down  
It's in your arms I'll stay

We'll love the world  
Love the world away

I said love sweet love  
The only thing i know for sure  
I finally found the perfect cure  
The rhyme and the reason

I said move along with me  
Through this crazy world we see  
We'll make a little history  
A heart for all seasons

Slow down  
Why keep up with this frantic base  
I swear

Above the store we'll find some space

We can't hear the silence  
Screaming in the streets  
Can't see the stormclouds  
Building in the big city heat  
It could be Armageddon  
Seven stories below  
When it all comes down  
It's in your arms I'll stay

We'll love the world  
Love the world away

In our little corner of paradise  
We'll leave it all behind us  
No one's gonna find us

In our little corner of paradise  
Cut off from the world we know

Life's so amazing we'll live it twice  
In our little corner of paradise

### Paradise

We can't hear the silence  
Screaming in the streets  
Can't see the stormclouds  
Building in the big city heat  
It could be Armageddon  
Seven stories below  
When it all comes down  
It's in your arms I'll stay

We'll love the world  
Love the world away

We'll love the world

Love it away  
Love it away  
Love it away  
Love it away

Love the world away

We're gonna love the world  
Love the world away

---
