

No End to the Circle: Goddess Devocation

Starhawk & Reclaiming

Now the old year's fruit comes to your hand
It is the seed of the year that now begins

There is no end to the circle, no end
There is no end to life, there is no end

For we have danced the spiral dance
The wheel of the year has turned again

Earth, we thank you for your strength
Air, we thank you for your cleansing winds
Fire, for our passion and our bright will
Water, for the love that flows within
And now as we ask you to depart
Strength and love remain bright in our hearts

There is no end to the circle, no end
There is no end to life, there is no end

The god who is tender and untamed
Who touches what is deep and soft within
Be with us as we lay the weapons down
For ours is the power to change

Remember how our hopes went up in flames
While poison and pain spread all around
But our anger is a fire that brings change
For ours is the power to end

For we are the guardians of the world
And we can heal the earth again
As the hills turn green with winter rain
Ours is the power to sustain

And we can dream what's never been
Unbounded love for women and for men
For all that grows, all that lives and flies and swims
And ours is the power to begin
And you can see the power in your eyes
When they are mirrored by a friend

And you can hear the power in your voice
And feel it in each breath that you breathe in
And you can know the power in your heart
When it beats with the heart of a friend
And you can feel the power in your hands
Reach out and take the hand of a friend

There is no end to the circle, no end
Together we have power to begin
There is no end to the circle, no end
There is no end to life, there is no end

Reach out and take the hand of a friend
Reach out and take the power to begin
