

# No Return

## One Way System

out on your own  
times running out  
don't you look back  
jump when they shoutno return no coming back  
no return no coming back  
no return no coming back  
no coming back for youkeep your head down  
on the right track  
i know you're a fool  
there's no coming back  
everyone's proud  
you're not alive  
name in the news  
no one cried
