Windows Of The World

Cayoz

Just like a rose
Without a thorn
Defenses fade
We've come undoneDesire
The answer for harmony
This moment together
We can seeDeep into the night
We're looking through the windows of the world
(Underneath the sky)
We're opening the windows of the worldWe stay afloat
On the sea of storms
The tides of time
Carry us alongBeginning
And ending
With what we knowSurrender
Emotions
Here we goDeep into the night
We're looking through the windows of the world
(Underneath the sky)
We're opening the windows of the worldBeginning
And ending
With what we knowSurrender
Emotions
Here we go
Here we goDeep into the night
We're looking through the windows of the world
(Underneath the sky)
We're opening the windows of the worldWe're looking through the windows of the world
We're opening the windows of the worldWindows of the world
Windows of the world
Windows of the world
