

# Ashes of the Wake

## Lamb of God

We killed a lot of innocent civilians  
To us every civilian in Baghdad was a terrorist  
[Incomprehensible] now in civilian clothes  
That makes everybody free game But if they came in our perimeter, we lit 'em up  
And when we would pull the body out  
And when we would search the car, we would find nothing  
This took place time and time again No harm, no foul  
That's okay, don't worry about it  
Because this is a new type of war  
This is an eradication I honestly feel that we're committing genocide over here  
I don't believe in killing civilians  
And I'm not going to kill civilians  
For the United States Marine Corp
