Down

Socialburn

Tell me, how does it feel
When it comes to you
And all the things you say to me
You make me feel like nothing
Like nothing
When you break me down
I'll fall apart and
Wrestle with myself, inside
I'm nothing
And tell me, how should I feel
When it comes to you
And all the games you play on me
You still make feel like nothing
Like nothing
When you break me down
I'll fall apart and
Wrestle with myself, inside
I'm nothing
When you break me down
When you break me down

When you break me down
And all the things you do
Like nothing, like nothing, like nothing
Tell me, how should this feel
When it comes to you
And all the things you do, to me
This makes me feel like nothing
Like nothing
When you break me down
I'll fall apart and
Wrestle with myself, inside
I'm nothing
When you break me down
I'll fall apart and
Wrestle with myself, inside
I'm nothing
When you break me down
When you break me down

I'm nothing
