

# Invention

## Pedro the Lion

Crazy people know  
The special place to go  
When the pressure is on  
Neurons re-align  
'Til the feeling is fine  
Or the trouble is gone  
They're in the business  
Of inventing saviors  
There's always trouble  
So tell yourself again  
That help is on the way  
And safety abounds  
That safety abounds  
When you need some  
Kind of guarantee  
That you're protected  
You start to trust  
The things that deeper comfort brings  
Before you've checked it  
You might be waiting  
For a long time  
There's always trouble  
So tell yourself again  
That help is on the way  
And safety abounds  
That safety abounds  
You think safety abounds  
You think safety abounds
