That's All I Wanna Do

[Graham Coxon](#)

I saw you today, you were too far away
It'd hurt me to say, hurt me to say
The words, the words I have to sayThere ain't no sound when you're not around
And it gets me down, yeah, it gets me down
My life feels so brownI just want to be with you
That's all I wanna do
I just want to be with you
That's all I wanna doInside my brain, it's just not the same
'Cus it's started to rain, it's started to rain
