

# Valley

## John Butler Trio

So have you been to the valley lately?  
Have you noticed that the shepherd is gone?  
So walk gently lady as you walk along  
?Cos I once fought for his forces  
But that cross bears nothing now  
I've seen all but your Crusades succeed  
And it's growing sour  
Gonna be a long time waitin?  
Things are always looking little better  
When you're on the backside of them  
And then you know all that you think  
You might need to know  
But even then, my little wing  
You'll have to grow, you'll have to grow  
So have you been to your God lately?  
No Jesus Christ, he ain't nowhere to be seen  
He is not there matey, he has never been  
So have you been to your church lately?  
No, cannot find the key to your home  
There is no support for you now, my friend  
They got problems of their own
