

Pick Me Up (Radio Edit)

[Tony Momrelle](#)

I may not have a pot of gold
I may not have a bill to fold
But it's alright (cause i'm gonna get it soon)
I may not be where i want
In life but all in all
Yeah it's alright (keep on making room)
My circumstance will change from time to time
And I've learnt how to dance in the rain
And though this mountain is hard enough to climb
Oh despite this little hold up I've got that peace of mind
To know that you pick me up
ahh baby
When times I feel like I can't do it
You see me through it
That's what you do
Woman you pick me up
When all's crazy
When I wanna trip I wear a smile
I keep my cool
cause I got you
(you)
When I've been beat up from the doubt
You reach out and turn me round
Yeah you're alright (got me going strong)
We'll keep our focus within the frame
Cause this picture is ours to paint
And it's alright (baby there's nothing wrong)
My circumstance will change from time to time
And I've learnt how to dance in the rain
And though this mountain is hard enough to climb
Oh despite this little hold up I've got that peace of mind
To know that you pick me up
ahh baby
When times I feel like I can't do it
You see me through it
That's what you do
Woman you pick me up
When all's crazy
When I wanna trip I wear a smile

And keep my cool
Cause I got you
There's nothing we can't handle
Our miracle's just around the corner now
And if we're down we'll get back on the saddle
We'll find our way again somehow
Cause I know that you pick me up
ahh baby
When times I feel like I can't do it
You see me through it
That's what you do
Woman you pick me up
When all's crazy
Ohh I know I'll find a way babe
I know I'll find a way
Cause I know that you pick me up
ahh baby
When times I feel like I can't do it
You see me through it
That's what you do
Pick me up
When I wanna trip I wear a smile
And keep my cool
Cause I got you
