

By My Side

Bryan Lanning

[Verse 1]

I can't find

A reason why

We can't share this

We can't fill this All have closed their eyes

And now's about the time

Take my hand and

Let's do this right Owe it to ourselves

Feel it break its shell

I want to show you how

How much you mean to me [Chorus]

Oh baby the night

It's not gonna be here forever

Oh in this life

You know I'm down for whatever With you by side

My side

My side With you by my side

You know I'm down for whatever

It's all alright [Verse 2]

So listen up and hold on tight

It's dangerous and dark

Feel the wind, we're good on time

Loosen up, it's fine Don't have to worry 'bout tomorrow

Just give it up to me

My heart's racing through my chest

I can feel the beat [Chorus] [Bridge]

I feel like I can fly

Feel you by my side We owe it to ourselves

Feel it break its shell

I want to show you how

How much you mean to me [Chorus] It's all alright (x2)

I want to show you how

Just how, just how

How much you mean to me
