She Takes Me

Dean Geyer

If there's chance to make it
Either way I'll take it to be by her side
To swim in her affection, bathe in her attention
Could she be mine?Can I look through into her eyes, into her disguise?
Does she see me, how can I make her realise
She takes me to higher ground,
And I'll never come back down
If I had a moment I'd show her all that we could haveBut we're still strangers, but we're still strangersDo you know I'm waiting?
Right here for the taking
I'll play my part
Don't leave me out here stranded with a love abandoned
This could be a startCan I look through into your eyes, into your disguise?
Do you see me, how can I make you realise
You take me to higher,
She takes me to higher ground,
And I'll never come back down
If I had a moment I'd show her all that we could haveBut we're still strangers, but falling for you
If I had my way
You'd be in my armsAnd she takes me to higher ground,
And I'll never come back down.
She takes me to higher ground,
And she's everything I wanted.
She takes me to higher ground,
And I'll never come back down.
If I had a moment I would show her all that we could have.
She takes me to higher ground,
And I'll never come back down.
If I had a moment I'd show her all that we could have.
But we're still strangers, we're still strangers.
