

# Tip of the Iceberg

## Wayfarer

When you are the furthest from me  
If only photo keeps me company  
And all I have's a shred of hope  
And thoughts till I see you again  
    All this time I'm waiting  
Wondering when will I see you again?  
When you are the furthest from me  
If only photo keeps me company  
And all I have's a shred of hope  
And thoughts till I see you again  
    All this time I'm waiting  
Wondering when will I see you again?  
    This is just the tip of the iceberg  
No bone in my body tells me I deserve her  
    This is just the tip of the iceberg  
No bone in my body tells me I deserve her
