One Night Stand

Janis Joplin

When I'm on the road playin' in a town without a name
And I'm feelin' low everybody looks the same
Well, you catch my eye and then you come on strong
An' try to make your play
Just because we love tonight
Please, don't you think it's gonna stay that way
Don't you know that you're nothin' more than a one night stand?
Tomorrow I'll be on my way, baby, catch me if you can
Honey, take me by the hand and play that game again
Everywhere I go, the people try to get next to me
That's alright but tomorrow I've got to be free
We've got good a thing, baby, and it's all up on us tonight
Don't you go and spoil it dear, by trying to get yourself all uptight
Don't you know that you're nothin' more than a one night stand?
Tomorrow I'll be on my way, baby, catch me if you can
Honey, take me by the hand and play that game again
When I'm on the road playin' in a town without a name
And I'm feelin' low, everybody looks just the same
You catch my eye, you come on strong
An' try to make your play
Just because we love tonight
Honey, don't you think it's gonna stay that way
Don't you know that you're nothin' more than a one night stand?
Tomorrow I'll be on my way, baby, catch me if you can
Take me by the hand and play that game again
Don't you know that you're nothing more than a one night stand?
Take me by the hand and baby play that game again
Don't you know that you're nothing more than a one night stand?
