

# To Repel Ghosts

## Manic Street Preachers

When the disappearing begins  
The ghosts we kept within  
Can break free from inside  
And untie our blindfold eyes

To repel ghosts

To repel ghosts

To repel ghosts

To repel ghosts

So, when the ghosts find you

Be careful, but be graceful

For all will be revealed

When ghosts become set free

A soul in pain

Has no image to reclaim

To repel ghosts

To repel ghosts

A soul in pain

Has no image to reclaim

To repel ghosts

To repel ghosts

Build bridges and not roads

Make love, make hate, make war

A soul in pain

Has no image to reclaim

To repel ghosts

To repel ghosts

A soul in pain

Has no image to reclaim

To repel ghosts

To repel ghosts
