Digital World

Italian Secret Service

Surfin' for love, spelling my heart out
Somewhere real far out in a digital world
Messages to start my day
Been sitting on my bus since Wednesday
Tried to hit you on your two way
Your mailbox was full all the way
We can meet tonight by satellite
What about half past midnight
I should just be off my flight
But for now I'll just dance and think about you
Electric love, electric light, electric life
Electric love, electric light, electric life
Let's just freak out, freak out, freak out
Me and you all alone
Freak out, freak out, freak out
But how we gonna freak off over the phone
I thought we were supposed to have a date
I guess he couldn't help but be late
It's okay I had to go
I had this conference call at 4 you know
I'm glad you paged me to say sorry
'Cause I know your thinking of me
Don't worry baby I'm not angry
'Cause for now I'll just dance and think about you
Electric love, electric light, electric life
Freak out, freak out, freak out
Me and you all alone
Freak out, freak out, freak out
But how we gonna freak off over the phone
Sugar we can do whatever tonight
Whatever you like but first darling
Can we get our jig on get our swig on?
Head back to our crib, before these niggas get to drawin' up in here
Please mind me for asking, have you ever had
Sex with a person with no attachments?
And the heat of the moment one night of passion
Nothing but a whole lot of grinding and grabbing
Moanin' and groaning till six in the morning
By the time you rolling over yawning

You'll be hearing my car door slamming and Perelli's ballin'
Coltrane daddy for short honeysuckle bartender
E and J on the rocks make it a double by the way if I might say
You're looking quite ravishing in your Prada apparel
From the shoes to the bags you're lucky I don't rob your ass dear
Cut to the chase, gimme your pin number and let's get outta here, yeah
Surfin' for love, spelling my heart out
Somewhere real far out in a digital world
Electric love, electric light, electric life
Electric love, electric light, electric life
Surfin' for love, spelling my heart out
Somewhere real far out in a digital world
Surfin' for love, spelling my heart out
Somewhere real far out in a digital world
Surfin' for love, spelling my heart out
Somewhere real far out in a digital world
