

# Foma

## The Nixons

Lies  
Light ahead, is it something that I can cling to?  
Is it something to help this life sustain?  
See no pain  
Is it just another train? Life ahead, is it something that I can count on?  
Is it something to keep the spirit raised?  
Seize my days  
Is it just another phase? Innocence left us long ago, lines are blurred on  
Everything that I've been told Foma, foma, foma Jesus Christ, is He someone you put faith in?  
Is He someone to wear your crown of thorns?  
Bear your wrongs  
Is He just another God? Sincerity left us long ago  
Stay in line and do exactly what you're told Foma, foma, foma  
Lies, see through your lies See the sign, is it something you would bleed for?  
Is it something that helps  
To feed your soul with a sense of hope?  
Just stay in line and do exactly what you're told Foma, foma, foma  
Lies, see your lies
