It's Not Over

StorySide:B

As we walk along the road
We laugh about the past and how quickly we forget
It's not exactly what we say
But the things that we had meant and let it slip awayIt's not over, it's not over
We are born again
Into creation and evolution of our spiritual way
A new day, a place where we belongAs we sit inside this room
Hoping something better soon
How badly I regret, it's not exactly what I did
But the things still left undone
It doesn't have to be too lateIt's not over, it's not over
We are born again
Into creation and evolution of our spiritual way
A new day, a place where we belongA place where we belongIt's not over it's not over
We are born again
Into creation and evolution of our spiritual way
A new day a place where we belong
