

# I Piss Alone

## Regurgitator

I piss alone, ugh hoh  
I don't want nobody to know  
That I don't have the pressure of some of the other boys  
They make a noise, it scares me so I piss alone, alone  
I don't want nobody to know  
That I don't have the pressure of some of the other boys  
Leave me alone, alone  
I just wanna be on my own  
'Cause I haven't got the pressure of some of the other boys  
I want a world where pissing troughs are obsolete  
There's only rows and rows of cubicles  
I'm so afraid  
When I try, it is often delayed  
I stand and stare into the air  
And then I might just put it away  
So quiet in here  
The only sound around is the fear  
The other guy is pounding the wall  
Like he's shooting dear  
I need a place where I can close and lock the door  
There I can stop and let it flow
