I was Broken

Robert Pattinson

I was tied but now unbound
My head is off the ground
For a long time I was so weary
Tired of the sound, I've heard before
The gnawing of the night time at the door
Haunted by the things I've made
Stuck between the burning light and the dusty shadeSaid I used to think the past was dead and gone
But I was wrong, so wrong
Whatever makes you blind must make you strong, make you strong
In my time I've melted into many forms
From the day that I was born, I know that there is no place to hide
Stuck between the burning shade and the fading lightI was broken for a long time
But it's over now
Said I was broken for a long time
But it's over nowYes and you,
yeah well you walk these lonely streets that people send, people send
There are some wounds that just can't mend
And I do pretend
Now I'm free from all the things that take my friends
And I will stand here till the end
Now I know I can take the moon
Stuck between the burning shade and the faded lightAnd I was broken for a long time
But it's over now, it's over now
Mm it's over now, now, now
It's over now, it's over now.
It's over now, nowSaid I was broken for a long time
But it's over, but it's over
But it's over, but it's over
But it's over, but it's over
But it's over now, now, now, now
But it's over, love is over
But it's over now
But it's over, love is over
But it's over now, now, now
I was broken for a long time yeah
But it's over, but it's over now yeah
Over now, it's all over, it's over now.
