Beat Connection

I don't know what I was hoping for
But you gave me something to think about
There was a time when it all made sense
But you're making it all up
To figure out
You shifted the focus back on me
And thats when I started to see
Don't matter at all
We're all human, We're all (?)
Don't matter at all
The distance between you and me
Don't matter at all
What you sayin', what you do
Don't matter at all
I just wanted it to all end up to you
Every day that passes we grow
Further apart
Further apart
Because you confuse me truly with somebody
Somebody I'm not
I can admit that I had my share of...
Doubts
Don't matter at all
We're all human, we're all (?)
Don't matter at all
The distance between you and me
Don't matter at all
What you sayin', what you do
Don't matter at all
I just wanted it to all end up to you
