All Naturally

Wayne Brady

Baby, you look so good just like that
Now take off that makeup
Let me see your face
Look at youLove to see you in the mornin' right as you're wakin' up
Sure the last thing on your mind is just how good you look
You never have to try hard, you're beauty's way off the charts
Wakin' up with you still takes my breath away'Cause it's so amazing girl to be with someone like you
Outside you're stunning, just as deep on the inside too
Even in tennis shoes and jeans always look so hot to me
So baby listen carefullyYou don't have to wear lipstick
To make me want to come taste your kisses
And you don't have to get your hair did
And I still wanna run my finger all through itAnd you don't have to get your nails done
With your girlfriends at the corner store
It's not gonna make you anymore beautiful
You don't have to wear lingerie just to impress me
'Cause I love you all naturallyEvery time you and I go out the fellas just stop and stare
And I know they see me but you're so fine they just don't care
I never get too upset 'cause girl I know who you with
Matter fact it validates the way I feelYou always think if you're not made up no one will look
But girl you could put makeup out of business for good
'Cause on a scale of 1 to 10 you're about a 1 million
So mama pay close attentionYou don't have to wear lipstick
To make me want to come taste your kisses
And you don't have to get your hair did
And I still wanna run my finger all through itAnd you don't have to get your nails done
With your girlfriends at the corner store
It's not gonna make you anymore beautiful
You don't have to wear lingerie just to impress me
'Cause I love you all naturally, naturallyI want you girl so naturally
I want you girl so naturally
I want you girl so naturally
I want you girl so, sing it againI want you girl so naturally
I want you girl so naturally
I want you girl so naturallyYou don't have to wear lipstick
To make me want to come taste your kisses
And you don't have to get your hair did
I still wanna run my finger all through itAnd you don't have to get your nails done
With your girlfriends at the corner store

It's not gonna make you anymore beautiful
You don't have to wear lingerie just to impress me
'Cause I love you all naturally, naturally
