

# Fool Me Too (feat. Nate Ruess)

## Emile Haynie

I've been lost for far too long  
Paid the cost now I move on  
'Cause you just keep on coming around  
With all the tales of how you're down  
To be the woman that was in my dreams  
Just my silence that makes you scream  
All those yells and all those cries  
Get drowned out by all your lies  
How hard you tried  
To not say goodbye  
But it's time for you to be alone Oh now I'm doing just fine  
Stop wasting your time  
Trying and trying to fool me to fall in love again  
So now you're still so blind  
Keep wasting your time  
Trying and trying to fool me to fall in love again  
Yeah, yeah, yeah  
To fool me to fall in love again, ooh Pushed you out but then I let you in  
Closed my eyes and you went off within  
And I don't know who taught you how to act  
But you ain't gotta behave like that  
Now I've gone and it burns your heart  
And you'll say anything to make it stop  
But all those yells and all those cries  
Get drowned out by all your lies  
How hard you tried  
To not say goodbye  
But it's time for you to be alone Now I'm doing just fine  
Stop wasting your time  
Trying and trying to fool me to fall in love again  
So now you're still so blind  
Keep wasting your time  
Trying and trying to fool me to fall in love again  
Yeah, yeah, yeah  
To fool me to fall in love again It used to feel like love  
And you can't go on  
And you can't go on  
Is it just too much?  
And it holds you high

But does it break you down  
And does it turn you wild  
Well does it turn you wild?  
All my love's left in that ocean, no  
Every feel that I become  
Now I'm moving on Now I'm doing just fine  
Stop wasting your time  
Trying and trying to fool me to fall in love again  
So now you're still so blind  
Keep wasting your time  
Trying and trying to fool me to fall in love again  
Yeah, yeah, yeah  
To fool me to fall in love again To fool me to fall in love again Trying and trying to fool me to fall in love again
