

# I Should Tell You...

## Eighteen Visions

I watched the falling rain splash upon your face

I know those aren't your tears

You know it's me and where I've been

It's just circumstances, don't let her downSo, I should tell you why it's so hard to tell you

You know it's me and where I've been and the million words I'm thinking

I burned my time today as I start to waste

You were my one and only and now, I don't know whyYou know it's me and where I've been

It's just the circumstances, don't let her downAnd I know what you're feeling tonight

And I know, soon everything will be fine

And I know what you're feeling tonight

And I know for now, you're mine
