Scream Shout

i5

Bring on the music,
Bring on the groove
Let's start this party,
Get in the mood
Don't bring your boyfriend
Unless he is fine
Dress him up sexy
And show up on timeRaise it up
Don't let the party stop
Keep on till you dropScream shout let it out
Turn the music up real loud
Ready set here we go
Let the music take control
Bump, bump
Shake your rump
Everybody turn and jump
Left, right, side to side
Shake your body let it rideLose the computer
This ain't no chat
So what if you're pretty,
Who cares if you're fat?
Don't bring your cell phone
No pagers allowed,
No perpetrating here
In this crowdPump it up, pump it up
Don't let the party stop
Keep on till you dropScream shout let it out
Turn the music up real loud
Ready set here we go
Let the music take control
Bump, bump
Shake your rump
Everybody turn and jump
Left, right, side to side
Shake your body
Let it rideNo nasty parents,
No boring school
Let's all get crazy,
Let's act like fools

'Cause Y2K's over and
We all survived
No armageddon to
Spoil the vibeScream shout let it out
Bump bump
Shake your rumpScream shout let it out
Turn the music up real loud
Ready set here we go
Let the music take control
Bump, bump
Shake your rump
Everybody turn and jump
Left, right, side to side
Shake your body
Let it ride
Scream shout,
Let it out
Lalalala
Lalalala
Lalalalala
Lalalala
(Repeat)Scream shout let it out
