

# Without

## Tremulant

O shove it

Wait

I didn't see it coming  
I took one last look around  
The machines were out of order  
The machines are out of order

Wait

I never paid attention daydreamin' til the end  
I need a second dose of childhood  
I need a second dose of childhood

I gotta get gone, get outta the rain  
I gotta get gone, get outta the rain  
I gotta get gone, get outta the rain  
I gotta get gone get gone

I'm feelin'

No meaning without you  
I've lost all of myself  
I'm searching for the reason without you  
Why can't I just pretend to keep feelin'  
Keep breathin'  
To save me from myself  
(To save me from myself)

Wait

I can't behave now I sit around Imp such a mess  
Looked around there was no one else here  
(I looked around there was no one else)

Wait

I can't get the wrong blade  
I lift up okay to go  
want to make my lunar orbit  
I try my best to absorb it

I gotta get gone, get outta the rain  
I gotta get gone, get outta the rain  
I gotta get gone, get outta the rain

I gotta get gone get gone

I'm feelin'  
No meaning without you  
I've lost all of myself  
I'm searching for the reason without you  
Why can't I just pretend  
To keep feelin'  
Keep breathin'  
To save me from myself  
(To save me from myself)

(I gotta get gone  
Get outta the rain  
I get gone  
Get outta the rain  
I get gone  
Get outta the rain)  
I gotta get gotta get  
Gone  
Gotta get gone  
Gotta get gone  
I gotta get  
Gone

I'm feelin'  
No meaning without you  
I've lost all of myself  
I'm searching for the reason without you  
Why can't I just pretend  
To keep feelin'  
Keep breathin'  
Save me from myself
