Naked

Samantha Jade

I feel the air, air, air
Against my skin
And it's cold.
You're never there, there, there
To listen in
You're like a ghost.
I tried to reach you.
God knows I've tried.
But you don't care, eh, eh
To hold me close
Oh oh.You're leaving me naked
So unprotected
How could you expose me
Told me, you'd never let me down, down, down
I'm nakedYou'll never know, oh, oh
What you caved in
Like a storm.
It hurts me to show, oh, oh
The mess I've been
Now you're gone.When I tried to hold you
All I held was air.
You're heart is stone, stone, stone
Won't bleed no more, ohhh.You're leaving me naked
So unprotected
How could you expose me
Told me, you'd never let me down, down, down.
You're leaving me naked
My heart is mistaken
How could you expose me
Told me, you'd never let me down, down, down
I'm nakedWish you're arms would've kept me here
Kept me here.
But your actions are crystal clear
You wouldn't fight for me.Mmmmm
You couldn't fight for meYou're leaving me naked
So unprotected, yeah, yeah, yeah
How could you expose me
Told me, you'd never let me down, oh
You're leaving me naked

So unprotected
How could you expose me
Told me, you'd never let me down, down, down
I'm naked
