

Head In Advance

Juvenile

It's the one nobody likes with bad breath and saggy pants
Might bounce a little bit but see a gangsta don't dance
Hoes say I am mean I never give 'em a chance
But can't a nigga get a little head in advance
It's the one nobody likes with bad breath and saggy pants
Might bounce a little bit but see a gangsta don't dance
Hoes say I am mean I never give 'em a chance
But can't a nigga get a little head in advance
Maybe not, probably don't even feel that way
I kid you not, what's under my waist is real I say
A yo my fire cracker pop like Independence Day
Them dick suckers long should have been in sentence may
I do a little somethin' I got that cut to tie your thighs up
I'm not asthmatic, look I'm healthy and I could fuck
That teenage pussy y'all don't want to zip it up
And no statutories havin' in here so catch a cut
Ohh how I love it when half your ass show
When you catch the side view it look like two elbows
And my dick stuck to my leg like Velcro
Stop cock blocking hoe and let them females go
If the hoes keep asking me up, yep I gotta stop her
I've been searchin' for me a lifipeeper
I'm serious you should wanna fuck with me period
Because I'm a little bit more than just a lyricist
It's the one nobody likes with bad breath and saggy pants
Might bounce a little bit but see a gangsta don't dance
Hoes say I am mean I never give 'em a chance
But can't a nigga get a little head in advance
It's the one nobody likes with bad breath and saggy pants
Might bounce a little bit but see a gangsta don't dance
Hoes say I am mean I never give 'em a chance
But can't a nigga get a little head in advance
This is to Alisha, Camren, Mashone and Don
If you fuck with Pimp Pickle, baby, show me your thong
Get your big ass up hoe, you know this is your song
Big daddy gonna be smashin' it till four in the morn
You doin' them jeans, yea black, you need to stop it
It looks like you got a loaf of bread in your pocket
Should have followed you first mind and snatch you first

But when I'm drinkin' everybody look like they got worth
I ain't even gotta tell a woman what I'm worth
She gonna show me some affection when I raise my shirt
I ain't never brought a woman where I do my dirt
Is to a nice confined spot where I can lift that skirt
Hopefully she's illegal with the head and all

Probably heard of my background and said I'm a dog
But I ain't about me baby it's about y'all
My fantasy is knockin' four y'all off
It's the one nobody likes with bad breath and saggy pants
Might bounce a little bit but see a gangsta don't dance
Hoes say I am mean I never give 'em a chance
But can't a nigga get a little head in advance
It's the one, nobody likes with bad breath and saggy pants
Might bounce a little bit but see a gangsta don't dance
Hoes say I am mean, I never give 'em a chance
But can't a nigga get a little head in advance
Shake that ass 'im

If you trying to get to Juvenile pass 'im
I'm not telling to tell you to put your man in past tense
It is just a little tiny favor that I'm askin'
Show me that poo shooter
Feelin' with ya throw it I'm gonna do ya
Just let wardy fanagle this maneuver
Although I'm from the sewer, I like having relations
I punch a bitch in the head for playing with my patience
I make a local hoe turn nation had me at the station
They hatin', sayin' that I violated my probation
There's a lot of kinky shit that's goin' on in the club
We be popping ecstasy lookin' for woman to hug
I promised not to get you caught up in these drugs
Put this gun in your purse, mami and roll with a thug
Your girlfriends always sayin', "She ain't like that"
Well hold that right there, mami I will be right back
It's the one nobody likes with bad breath and saggy pants
Might bounce a little bit but see a gangsta don't dance
Hoes say I am mean I never give 'em a chance
But can't a nigga get a little head in advance
It's the one nobody likes with bad breath and saggy pants
Might bounce a little bit but see a gangsta don't dance
Hoes say I am mean I never give 'em a chance
But can't a nigga get a little head in advance
Shake that ass 'im
If you trying to get to Juvenile pass 'im

I'm not telling to tell you to put your man in past tense
It is just a little tiny favor that I'm askin'
Shake that ass 'im
If you trying to get to Juvenile pass 'im
I'm not telling to tell you to put your man in past tense
It is just a little tiny favor that I'm askin'
