

# Rebel Monster

## Detest

Drunk again my baby  
Well the water ain't my brand  
That god damn demon booze  
    Forever hunting  
    Sitting on my shoulder  
    Talking to my inner self  
Well, let's forever feed that rebel monster  
    Well here we go again no rules are set  
    And let us stay on the running train  
    Forever pumping - No ink on papers  
    To show the motherfuckers who I am  
    Let's forever be that rebel monster  
    Forever let the train be running  
        Without breaks  
    To a place like nothing else  
        A feeling out of tears  
    They came from everywhere  
        To see the running train  
    Wishing they were part of it  
    Duka duka duka bunga bunga  
        Just hold on because  
    The train went up in the air  
        and crashed to the ground  
        Boiled in blood my baby  
        With a broken leg and arm  
Let's forever bleed that rebel monster  
    They came across the land  
    To get the lying train back on track  
        And worked for days  
        The sun were burning them  
    Someone stayed and someone left  
    But now it runs again to a place  
        Like nothing else
