

Edge of the Globe

Rockit Gaming & TryHardNinja

Thought I was done trying to make a run at what they call average life actual deception
The name's Nathan Drake 3 years later goodness sake
Get a call from my brother and I need to save

There's a new fortune to be had look at that
But I want it caution it could go bad
On the hunt for the captain's riches
Doesn't matter what it's a vicious mission

I'm speechless but needless to say I'm genius
I'm teaching the ways to scour the land
I mean it so scenic
Can you feel it?

I'm an honest thief at least
That's what I believe
Living on the edge
It's only way to see

Where the road ends
Ours is beginning
Tonight we're drowning
In the unknown

Let's free fall off the edge of the globe
Ex marks the spot where no one dares to go
This wanderlust in my veins
It can't be tamed

Let's free fall off the edge of the globe
Take me away
Free fall off the edge of the globe
Take me away
Free fall off the edge of the globe
Take me away

I've done it all through jungles and waterfalls
Hanging up cliffsides and jumping off walls
'Cause I'm the master treasure hunter
Lara Croft might be the mother

But she's outdated no wonder
I sell more than any other
I've been pushed back held up
No wonder I'm perfect
The fans might complain
But I assure you it's worth it
Might as well be Indiana's predecessor
But I am much younger and I do look much better

With my brother dodging bullets and explosives
Grapple over tree tops
This city is corrosive

Where the road ends
Ours is beginning
Tonight we're drowning
In the unknown

Let's free fall off the edge of the globe
X marks the spot where no one dares to go
This wanderlust in my veins
It can't be tamed

Let's free fall off the edge of the globe
Take me away
Free fall off the edge of the globe
Take me away
Free fall off the edge of the globe
Take me away

Addicted to the thrill can't stop
It washes over me like rain
Collects and pools into a flood
Take me away
Take me away
Let's free fall off the edge of the globe
Ex marks the spot where no one dares to go
This wanderlust in my veins
It can't be tamed
Let's free fall off the edge of the globe
Take me away
Free fall off the edge of the globe
Take me away
Free fall off the edge of the globe

Take me away
