

# Bulletproof

## Scary Kids Scaring Kids

It's happening again So cross your fingers  
And cover up the path you left again He was crossing his fingers  
(Crossing his fingers)  
As the bullet pierced his chest Your people piled high  
These figures never lie  
The prize your country sent  
A perfect red embellishment (Your)  
Your pride just swallow it  
(Just swallowed it)  
Your pride just swallow it The answer to this call to arms  
Marching onward, marching backwards  
You're stomping over broken hearts  
Marching onward, marching backwards  
Will weary solders lay them down in time It's happening again So cross your fingers  
(Cross your fingers!)  
Until there's nothing left Just stop and take a breath  
Suck in the stench of death Just count the numbers back  
We hope they all died right on impact Your  
You pride just swallowed it  
Your pride just  
Your pride just swallowed it So take a number undertaker  
Marching onward, marching backward  
The last hands to be laid on loved ones  
Marching onward, marching backward  
Our sons and daughters sleeping in the rubble (I say let the Congress declare that)  
(Since the unprovoked stand down, a speech of war)  
This is the last  
(The last time, I'll tell you) I'm bulletproof, I'm bulletproof  
Sign, sign you're love away  
I'm bulletproof, I'm bulletproof  
How many pieces are you gonna come back in? I'm bulletproof, I'm bulletproof  
Sign, sign you're love away  
I'm bulletproof, I'm bulletproof  
How many pieces are you gonna come back in?
