Sound Of America

Matt Willis

There's something stirring in the neighbourhood
Ugly but it's looking good
East coast to the west
And they play my favourite song yeah
I lie awake all night on aeroplanes
I got static on my brain
Waiting for the day when I will be back with you
Here comes the sound of Amerca
Here comes the sound of America
This is the sound of America
Look out kid I'm coming to get you
Here comes the sound of Amerca
Here comes the sound of America
This is the sound of America
From an English who loves you
There's magic on your finger tips
Holy water on your lips
Heading for a heart attack and good vibrations
Feel it rocking on the radio
Getting deep inside your soul
Shooting down your back, panic stations

Here comes the sound of Amerca
Here comes the sound of America
This is the sound of America
Look out kid I'm coming to get you
Here comes the sound of Amerca
Here comes the sound of America
This is the sound of America
From an English who loves you
Does everybody know my name?
So everybody walk this way
Got to get this off my chest so hear
These words you won't forget
Got this house under arrest
I'll take you all the way...
Here comes the sound of Amerca
Here comes the sound of America
This is the sound of America

Look out kid I'm coming to get you
Here comes the sound of Amerca
Here comes the sound of America
This is the sound of America
From an English who loves you
