

You Will

Patty Loveless

When you know and you will
It wasn't meant to be
When she walks and she will
You're gonna come to me When she lies and she will
When all is said and done
You cry and you will
You're gonna want to run Go ahead and do what you gotta do
It's really not up to me
But the day will come when you finally see
Where you want to be
When you're gonna be back When you hurt and you will
Who's gonna sympathize
Well she won't but I will
Then you'll realize So go ahead and do what you gotta do
It's really not up to me
But the day will come when you finally see
Where you want to be
Then you're gonna be back She lies, she will
I know you will
I just know you will So go ahead and do what you gotta do
It's really not up to me
But the day will come when you finally see
Where you want to be
Then you're gonna be back When she lies and she will
And you know she will
When you hurt and you will
I know, I know, I know you will
I know you will, I know you will
I know you will, I know you will
